AIDS WALK 2024

THE WORLD'S LARGEST AND MOST VISIBLE HIV/AIDS FUNDRAISING EVENT

AIDS Walk was established in 1986, emerging from the anguish experienced by gay men in neighborhoods from Greenwich Village to Harlem, who were among the first to be besieged by the deadly new disease. It was nurtured by the passions of New York's diverse communities of art, culture, and commerce, which were ravaged by the early HIV epidemic. It was steeled for the long haul by activists who knew that ending HIV/AIDS would require more than fighting the virus. It would also require confronting the social ills that fuel it—racism, sexism, homophobia, and poverty.

This year, AIDS Walk New York brought together over 8,000 people who **raised who raised over \$1.8 million for GMHC (Gay Men's Health Crisis)** and other tri-state area HIV and AIDS services and organizations. With the support of multiple NYBC employees, the PACRU (Project ACHIEVE/Columbia Research Unit) AIDS Walk team raised \$1600 for GMHC to bolster HIV services in NYC.
